

MARLICE 2024

3rd International Forum
on Marine Litter and the
Circular Economy

CIRCULAR SOLUTIONS
FOR CLEAN OCEANS

22 - 24 May 2024
VALENCIA (SPAIN)

What is MARLICE 2024?

MARLICE is an international forum about marine litter and circular economy that has been running since 2019.

It is a meeting point for parties interested in gaining knowledge, experience and finding solutions.

It is organized by  AEBAM, with the goal of creating an efficient associative framework that will contribute to preventing and reducing the effects of the marine litter that reach the ocean.

Objectives

- ❖ Foster synergy between the private and the public sector
- ❖ Align the future strategies of the involved sectors
- ❖ Reach compromises on an international scale
- ❖ Involve the general public in the latest technological advances in marine litter

LOCATION

The port city of Valencia is situated on the coast in southeast Spain, where the river TURIA enters the MEDITERRANEAN.

The emblematic and iconic building **VELES E VENTS** in Valencia's harbor will be the forum's main location.

Between the historical building El Reloj and the futuristic Veles e Vent, from **22 to 24 may 2024** the events of our forum for the general public will take place in MARLICE4PEOPLE (exhibitions, workshops, etc.)

PREVIOUS EDITIONS

MARLICE STATISTICS

- **250+** professionals from **30** countries
- **23** international **SPONSORS**
- **11** science sessions, **68** speakers
- Percentages of the participation of different sectors: **31%** Private, **14%** Public, **27%** Research and **29%** civil society
- **30+** project presentations
- An audience of more than **one million** through social and mass media

KEY TOPICS

In **MARLICE 2024** we combine knowledge and experience to find solutions for dealing with marine litter through three different blocks: **governance, research & innovation** and **conservation**.

Gouvernance

European politics

Conventions of European seas

Extended producer responsibility

The role of tourism

Compromises in collaboration between the interested parties.

Research & Innovation

New technologies

Hotspots: innovative solutions

Circular economy, recovery and ecodesign

Treatments and technologies of freshwater

Conservation

Prevention

Species & habitats

Fishing for litter

Rivers as a source of marine litter

METHOD OF WORK

- ❖ Planning sessions with international experts
- ❖ Round tables and dynamic discussions on key topics
- ❖ Workshops in multifunctional halls
- ❖ Designing spaces for networking

MARLICE 4PEOPLE

a forum open
to the PUBLIC

A TOOL FOR RAISING AWARNESS

These are some
planned activities...

- A photography contest
- Interactive workshops
- Audiovisual projects
- An exhibition of art of marine litter

Opening up discussions
with consumers

Turning MARLICE
into a key actor in
making a change

Developing a
powerful strategy
of communication

REASONS TO PARTICIPATE:

- ❖ Get your brand into this environment
- ❖ Participate in international networking
- ❖ Be a part of the dynamic sessions
- ❖ Present your projects
- ❖ Moderate a session
